Chikkamagaluru, KA, India | +91 7019141451 | vinuthaa1010@gmail.com | linkedin.com/VINUTHA | github.com/Vinutha1010

PROFESSIONAL SUMMARY

Detail-oriented Information Science and Engineering graduate (CGPA: 9.13/10.0) with hands-on experience building full-stack web applications, machine learning systems, and AI-driven platforms. Seeking an entry-level Software Engineer role to apply problem-solving skills and contribute to scalable software solutions.

TECHNICAL SKILLS

Languages: Java (DSA, OOP, Multithreading), C, C++, JavaScript, TypeScript, Python, SQL
Web & APIs: React.js, Node.js, Express.js, Prisma ORM, REST APIs, HTML, CSS
Databases & Tools: MySQL, PostgreSQL, MongoDB, JDBC, Git, GitHub, Unix/Linux, Power BI
Core CS Concepts: Data Structures & Algorithms (DSA), OOP, DBMS, Computer Networks, Cybersecurity

PROFESSIONAL EXPERIENCE

Codveda Technologies

Jul 2026 – Aug 2026

Java Development Intern

- Participate in the SDLC designing, testing, and maintaining core Java applications following OOP principles.
- Developed a multithreaded client-server application using Java Sockets to enable real-time concurrent message broadcasting.
- Implemented persistent database connectivity using JDBC and MySQL to handle multi-table CRUD operations and guarantee transactional integrity.
- Executed regular unit testing and debugging routines to optimize software performance and uphold code quality.

KEY TECHNICAL PROJECTS

LockedIn | AI-Powered Technical & Mock Interview Platform

- **Tech Stack:** React, TypeScript, Node.js, Express.js, Prisma ORM, Google Gemini AI, REST APIs
- Engineered an interview simulation platform integrating Google Gemini AI and Monaco Editor to evaluate technical coding rounds in real time.
- Developed a secure JavaScript sandbox runner with AST stripping, multi-test-case validation, and 3000ms timeout protection.
- Architected a library of 191+ questions across DSA, CS fundamentals, and aptitude with automated rubric scoring.

Disaster SHERo | Digital Disaster Preparedness Platform

Aug 2025 – Nov 2025

- **Tech Stack:** React, TypeScript, Node.js, Express.js, MySQL, REST APIs
- Engineered a full-stack disaster management platform delivering automated real-time emergency alert broadcasts.
- Architected Role-Based Access Control (RBAC) and admin analytics dashboards to securely manage fine-grained user permissions.
- Maintained 90%+ code quality through continuous Git/GitHub version control, automated unit testing, and peer code reviews.

Gramin Shield | AI-Powered Adaptive Digital Payment App

- **Tech Stack:** Python, Machine Learning, Adaptive Security, FinTech
- Designed a rural FinTech application with multi-tier adaptive transaction security; trained ML models achieving 94%+ fraud detection accuracy.
- Implemented dynamic OTP authentication routines for elevated-risk transactions without impacting system latency.

EDUCATION

Adichunchanagiri Institute of Technology

Chikkamagaluru, KA

Bachelor of Engineering in Information Science and Engineering | CGPA: 9.13/10.0

2023 – 2027

CERTIFICATIONS & ACHIEVEMENTS

- **NPTEL Elite:** DSA using Java (IIT Kharagpur)
- **NPTEL Elite:** Joy of Computing with Python
- **Simplilearn:** AWS Services Fundamentals
- **1st Place Winner:** PALS Think2Impact Workshop
- **MongoDB Certified:** Document Model & Atlas
- **Cisco Academy:** Introduction to Cybersecurity
- **Skill India Digital:** AI Certification (270 Hrs)
- **SIH 2025 Participant:** Internal Hackathon Round

LEADERSHIP & EXTRACURRICULARS

Department Event Organizer: Co-organized 5 technical symposiums and coding workshops for 150+ students at Adichunchanagiri Institute of Technology, managing scheduling, event logistics, and technical platform setup.
